

Gift Box Ornament

Step 1: Print on card stock following printer instructions.

Step 2: Grown-ups only: Cut out box using scissors or an X-acto knife and cutting board.

Step 3: Fold sides of box along lines and tabs. Tape or glue side tabs (marked "glue") to inside of box.

Do not glue top tabs. Punch the two white holes with a hole punch. Thread ribbon through holes, then tie knot on inside of box.

Step 4: Put a tiny surprise inside, then close the top by inserting top tab. Decorate the box as you wish, with stickers, stamps, bells, etc.
